

Can't put your finger on how to IMPROVE YOUR BUSINESS

What's in a Name?

Control = Control v., **1.** To exercise restraint or direction over, dominate, command e.g. to be in control of your destiny. **2.** To direct the workings of any action **3.** To hold in check, to place in check a specific task
Zone = Zone n., v., zoned, zoning **1.** Any continuous area, which differs in some respect, or is marked off for some purpose, from specific circumstances: a military zone, or an industrial zone. **2.** Marking out an area in according to its use.

We can help!

Control Zone innovative business consultants offer you a new and direct approach to delivering a higher level of success for your business. Our methods evolve around you and your needs. Control Zone's aim is to target specific zones in your business. We focus your attention to gain control of your business. Help is always here and many times, as a business owner, you just don't realise, how easy and in many cases how quick your return on investment occurs.

How do Control Zone deliver "CLEVER" improvements

Our philosophy is aimed to keep it simple, practical and logical business improvements while providing easy to follow steps that are achievable. Our formula provides several fundamental common sense approaches, which look at your business from our experience gained by exposure to 1000's of Australian and overseas businesses since 1972. We clearly identify simple good business practices which we share with your business and you.

- C - Clarify the project**
- L - Leverage your knowledge & skills**
- E - Educate the team**
- V - Verify the process & progress**
- E - Ensure the optimum result**
- R - Review prior to implementation**

Our "CLEVER" process validates that a great project is doing it correctly once. Therefore the development of a project may need to look at starting at the end and working backwards.

Focus your energy to gain maximum business improvements

We look at the issues that need to be controlled and at the specific areas and zones of your business that can be identified to make immediate impact. The zones we identify are then reviewed, monitored and adjusted to maintain sustainable benefits long term by a manageable game plan.

Start improving process and systems while enjoying your business

If you are ready to improve your business then push the "let's get started" button, read on and select the buttons which best suit your immediate needs.

Business mentoring www.businessmentoring.net.au

Another business person to discuss your needs? Often it is simply a matter of having a sounding board or mentor to bounce ideas off and receive. A business mentor can listen to your ideas and grow your skills while offering years of experience gained by practical hands on knowledge and involvement.

Brain storming sessions www.controlzone.com.au/whatwedo_brainstorming

A single event can change your entire life! Brainstorming raises issues, lists needs and allows an analytical approach quickly! Just a few hours and around \$1000 can deliver real answers from you and your team, which may have been hidden for years!

Business plans www.businessplans.net.au

There is an old saying that I know you have already heard, "Failing to plan is planning to FAIL!" Well the old statement is TRUE in our view. We can assist with your business planning including short and long term business plans, sales and marketing plans, financial goals, cash flow forecasting, acquisition, research, succession and exit plans. It's fair to say if you are looking forward in your business you need a plan of how to best achieve the result you desire, this is precisely where we can help.
